

Hello Residents of Brookline,

We are offering a Rain Barrel Program to help residents conserve water and save money.

Here's How Rain Barrels Help You Save Money and Conserve Water

- Rain barrels collect and store rainwater for outdoor water use which means *you'll save money on your water bill.*
- Rain water is chlorine free and an excellent source of plants and gardens
- Rain barrels reduce pollutants from entering into the water supplies by reducing runoff – which helps towns manage the water supplies and keep costs down.
- Rain barrels are low cost and easy to install.

Rain Barrel Facts

The rain barrel is repurposed from a 60 gallon shipping drum that is 39" tall by 24" wide, 20 lbs. empty. The shipping drum is made from 3/16" polyethylene which is UV protected and BPA free. The barrel comes complete with overflow fittings, drain plug, screw on cover, and a threaded spigot with a choice of two ports to use with either a watering can or a garden hose. The rain barrel arrives with simple instructions for fast and easy installation.

Available Colors: Forest Green, Earth Brown or Nantucket Gray and Unpainted

Special Price for Town Residents: \$79 versus the retail price of \$119
