Subject: Hancock Village

Dear Zoning Board of Appeals,

I am writing to state my opposition to the proposed 40B development at Hancock Village. I know that you have already heard and read many criticisms of this proposal. This letter tries to illustrate for you in four photos the respect that the Olmsted Brothers showed for the open space and the puddingstone outcroppings in their design of the landscape. The proposed development will destroy the open space, take away outdoor recreational areas, blast the outcroppings causing unknown problems, add roads and parking, and generally reduce the beauty of the postwar Garden City design.

Please deny this project. Thank you,

Jean Stringham, TMM Precinct 3
