Warrant Article 30 at the Fall 2016 Special Town Meeting called for the Police Department to "post every police report online on the town website within 48 hours of the incident". Town Meeting voted to refer Warrant Article 30 to the Moderator's Committee on the Posting of Police Reports, which is studying the desirability and feasibility of posting Brookline police incident reports or department logs on the website.

At this hearing, the committee is interested in hearing from Brookline residents about the extent of the information that the police department makes available to the public.
